

Fire Protection Water Storage

Discover the Difference with Pioneer Water Tanks

Combine your domestic and fire-water storage in one cost-effective, space-efficient tank.

Pioneer Water Tanks are engineered to exceed NFPA 22 standards for fire-water storage and come with a complete set of engineer-approved drawings.

Optional anti-vortex and fire-fighting adapters ensure water is always available for quick access during a fire emergency.

Made of ZINCALUME® steel that has been proven to withstand fire immersion and resist corrosion, ensuring the safety of your water supply in even the worst emergencies.

Pioneer Water Tanks can be configured for high-wind locales, seismic conditions, and heavy industrial zones with additional accessories available.

Pioneer Models	Tank Diameter	Tank Height	Capacity in Gallons
XL08	15' 5"	7' 2"	9,907
