# FAREWELL TO PLASTIC

## 100% recyclable

### The only poly laminate capsule without plastic

Its biggest advantage is that it contains **no plastic**, reducing the environmental impact of the poly laminate capsule, thereby preventing deforestation, an increase in the price of staple goods, and plastic waste that takes more than 400 years to disintegrate.

It can be recycled through the waste collection systems already in place.

### Exclusive

Patented by Ramondin. Being the only manufacturer able to produce this capsule means this anti-counterfeit measure is a competitive advantage.

### Committed

Ramondin joins clients' and end-consumers' commitment to sustainable, environment-friendly, recyclable products. CAP does its part in the fight to preserve and improve the world we live in.

### Technical upgrades

CAP improves performance with certain bottle profiles.

### Available

CAP is available at all Ramondin production plants.

### By your side

After-sales service and consultation. CAP maintains the traditional poly laminate capsule's same delivery times and availability.

### Water-based inks

Unlimited design possibilities. Paints used are solvent-free. \*Water-based inks in selected colors.
