**Float on a cloud:** P&L's Must Vessel™ gently and efficiently moves whole berries to your fermentation tanks

## NEW! MUST VESSEL™

Featuring P&L's proprietary  
Consista-Seal Valve™

P&L's Must Vessel™ provides a flexible and simple way to convey whole berries from your sorting line to the fermentation tanks. Once positioned over your tank, the Must Vessel™ is drained into the tank through P&L's proprietary Consista-Seal Valve™. Our motorized Consista-Seal Valve™ is operated via remote control, without requiring the operator to leave the forklift. Onboard rechargeable battery power opens the valve, and gravity moves the must into your tanks. Nothing is gentler and easier to use.

### FEATURES

- Flanged top opening reduces spillage while in transport
- Proprietary P&L Consista-Seal Valve™ with 12-inch opening
- UL-listed control box
- Wireless remote control for valve
- Rechargeable battery
- 8-inch wheels with locking brakes
- Built-in forklift pockets
- High-quality stainless steel construction
- Easy cleaning and sanitizing

### SPECIFICATIONS

- Dimensions: 48" x 48" x 36" tall
- 1/2-ton capacity

P&L's proprietary Consista-Seal Valve™ efficiently directs berries into the tank and is easy to clean and sanitize

The Must Vessel™ features rugged steel construction and NEMA 4X enclosures for durability in the cellar environment
