

## Ethanol of at least 70% is recommended by CDC as a surface cleaner for Coronavirus

### High Proof Grape Spirits Available for Production Facility, Tasting Room, and Office Sanitation

#### VIRA-PROOF at 140 Proof (70% abv)

- Specially formulated with Original Blend and Reverse Osmosis water
- Sanitizing surface spray ready to use as a daily surface disinfectant

#### Original Blend at 170 Proof (85% abv)

- Continuous column distilled from Reverse Osmosis permeate
- Moderately clean spirit; somewhat fruity character; great for general wine fortification and cellar sanitation

#### Premium Blend at 184 Proof – (92% abv)

- Original Blend re-distilled in a copper pot still with rectification column
- Very clean spirit; pleasant, fruity character; perfect for fortifying high-end/premium wines, making ports, and use in alcohol tincture making where mild grape character is desired

#### Pure Blend at 190+ Proof (95.0%+ abv)

- Neutral grape spirit
- Exceptionally clean, neutral character; great for any use where a true neutral spirit is required including vodka, wine spirits additions, sanitation, and tincture making
