- Name tables and add seat count. Tables are combinable

Getting Started With OrderPort.

OrderPort has the best combination of Services, Support, Security and Price. When you're ready to start we'll make the migration to OrderPort easy. We have experience helping customers move to OrderPort from every software system. You'll work with an Implementation Specialist that will guide you through the steps making sure that your team is ready to use OrderPort.

We recommend allowing 2-4 weeks to implement but we work at your pace. Starting with your required Go-Live date we build a plan for Account Configuration, Data Migration, System Integration and Training. After Go-Live you have access to the OrderPort Support Team 7 days per week via phone, email and helpdesk. Support is included at no additional charge.

Tasting Room Hardware

The OrderPort Point of Sale runs on iPads and iPhones. You can use multiple devices enabling your staff to help multiple customers simultaneously. A hardware configuration diagram can be viewed at www.orderport.net under hardware. You can also see sources for purchasing iPads, mounts and cases, receipt printers, cash drawers, card readers and bar-code scanners.

Service Pricing

OrderPort has service programs for wineries of every size. Choose from bundled programs or select the service modules you need. You are only charged for the features used and modules can be added when you're ready.

Contact us at info@orderport.net or online at www.orderport.net to schedule a system demo.
