

We are: Advocates-Builders-Catalysts.

As ADVOCATES, we look out for our clients' interests. Knowing our clients and their designers have a vision, tempered by time and budget, our experience and skills are put to work. Our consultative and collaborative style allows confidence to grow. And as we go, we focus on each detail – not just the final outcome.

As BUILDERS, we bring over 30 years of varied experience to buildings of diverse design and unique features. We start with careful project planning and selection of materials, and evolve through construction of sound, functional structures enclosing carefully appointed, comfortable environments. Exacting craftsmanship characterizes all of our work, while realistic, experience-based estimates and schedules add to the benefits for clients.

As in chemistry, we're CATALYSTS, initiating and facilitating a process. On our projects, all parties' interests are considered. Weekly communication between owners, architects, engineers, building departments, and our team is best practice. We provide information needed for key decisions, and assure those decisions are made. We strive to keep projects on track to achieve a finished product that best reflects our clients' goals.

JMA, RESIDENTIAL BUILDER

Jim Murphy and Associates also builds high-quality custom homes. Our residential projects include numerous estate homes in the Dry Creek Valley, Alexander Valley, Shiloh Estates, and the Sonoma and Napa Valleys as well as major remodels in the same regions. For a photo gallery featuring some of them, we welcome you to visit our website at www.j-m-a.com.
