## ROCKIN' OUT with Hurricane Eddie

I live for a song that is so simple and yet drives an immediate visceral reaction. The kind of reaction where you can imagine yourself acting outside of your daily zipped up self, the kind of reaction that makes you want to act out and not EVEN care what happens, The kind of song that makes you think for one second that you really could run away to New Orleans and stay drunk for 3 weeks, the kind of song that makes you want to tell that person you hate to love that this is really how you feel, the kind of song that makes you think, Yes I could have been an undercover secret agent, the kind of song you yell the lyrics out loud in the car and point your finger at your imaginary violator. They aren't love songs, romance songs, pop songs, deep thinking esoteric songs, they aren't humm alongs or whistlers, they aren't feel sorry for yourself songs, NO they are the "I am a bad ass" songs. I hope you like them.
