

# FLEET TRACKER

*"The Right Track"*

Theft Prevention • Reduce Dispatch Time • Grower & Customer Specific Tracking • Schedule & Track Maintenance

The screenshot displays the Fleet Tracker web application. At the top, there is a navigation menu with options: Dashboard, Tracking (highlighted), Routing, Geofence, Workflow, and Reports. Below the menu is a 'Tracking Tools' section with tabs for 'Track' and 'History'. A filter dropdown is set to 'All Groups' with a count of 77. A table lists various vehicles with their last update times and status icons.

Vehicle	Last	Status
Jim Tablet	11h11m	Online
Product Bin 1015		Offline
Product or Equipment	3h22m	Online
Sales John	0m	Online
Sales Robert	3m	Online
Trailer & Equipment	22h27m	Offline
Truck 07	15h43m	Offline

The main area is a satellite map showing a rural landscape with roads like Hickman Rd, Lake Rd, and E Whitmore Ave. Several red circular callouts point to specific locations on the map, each containing an image of a tracked vehicle: a large metal structure, a white trailer, a red ATV, a red semi-truck, a yellow tractor, a white pickup truck, and a yellow combine harvester. On the left, a smartphone displays a mobile version of the tracking interface, with the text 'View from your phone' overlaid.

Know Driver Behavior • Follow Labor Laws • Manage Row by Row • Possible Insurance Savings with Certificate
