

A fully integrated **remote** and **real-time** solution for **smart monitoring** the **winemaking** process

## MULTIPARAMETER MONITORING

Monitoring fermentation, until recently, was mostly a manual, reactive and time-consuming process. With WINEGRID it becomes a remote, real-time, proactive and predictive process.

## 3 SIMPLE STEPS

to help drive the wine production precisely as you want by using WINEGRID's sensing solutions

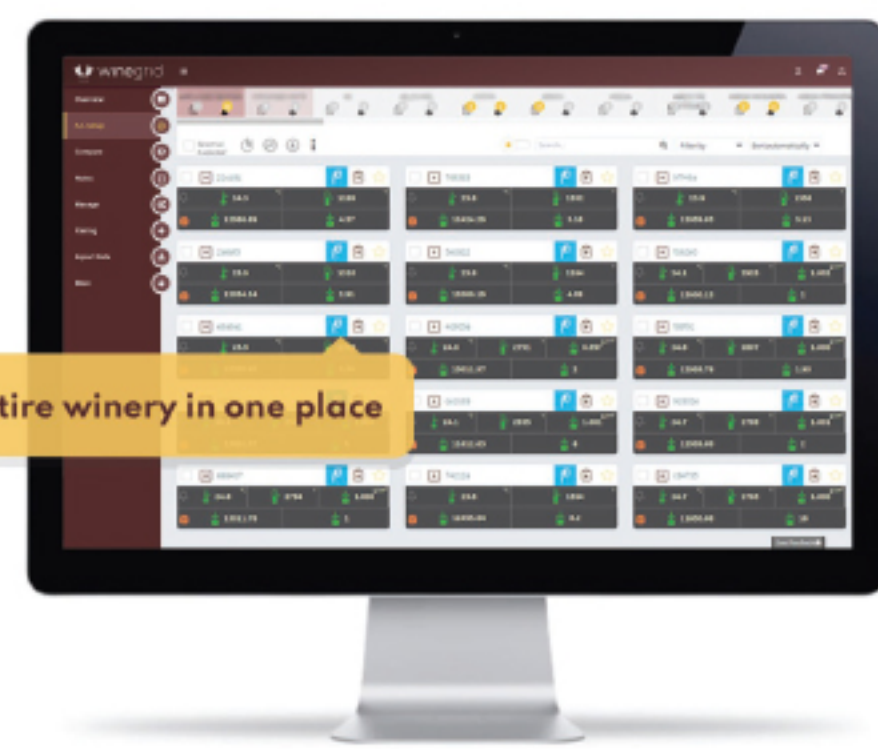

## VISUALIZATION PLATFORM DASHBOARD

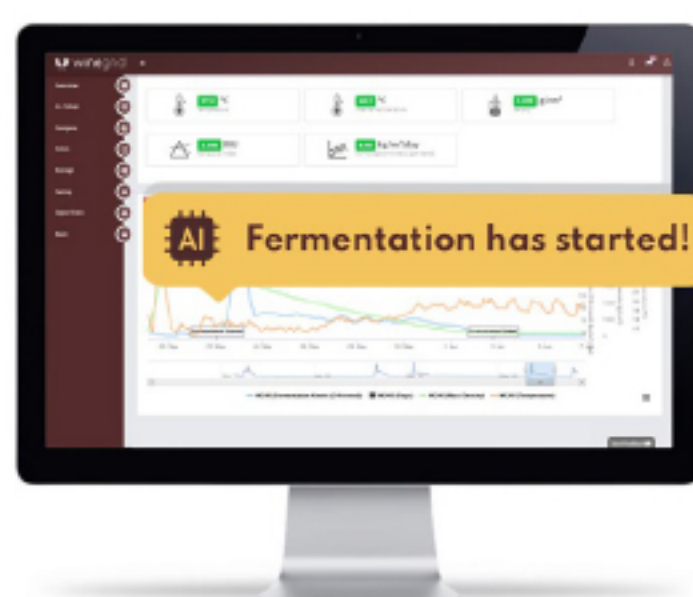

THE WINERY IN THE PALM OF YOUR HAND.

SIMPLE.  
EASY.  
ANYTIME.  
ANYWHERE.

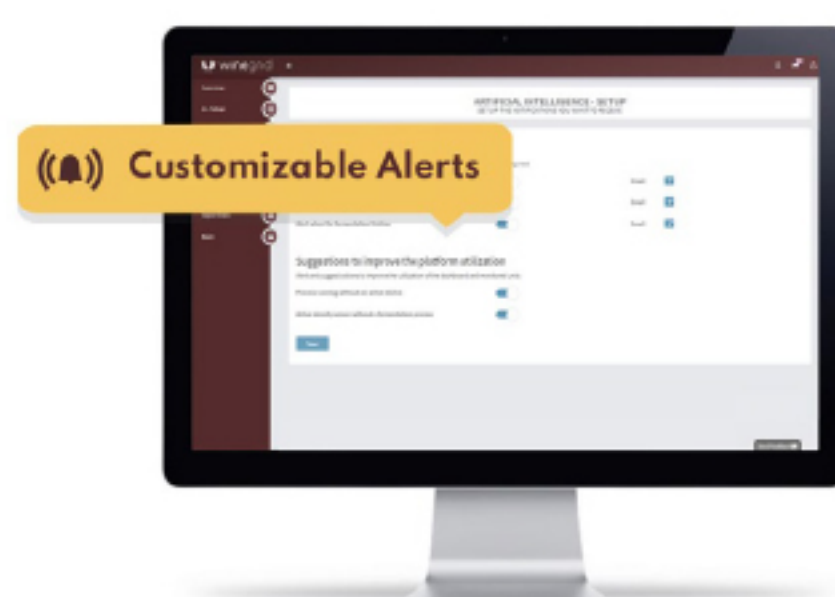

User-friendly and remote access to all the sensing units, in your winery on a computer, tablet or smartphone.

MULTIPARAMETER MONITORING

ARTIFICIAL INTELLIGENCE

CUSTOMIZABLE ALERTS AND NOTIFICATIONS
